PILLAR OF LIGHT

The Pillar of Light is created to energetically balance and protect you and the house from all the big energy shifts that are all around us.

It doesn't take away the shifts but it will flatten the highs and the lows to a more bearable frequency so you will not feel out of balance all the time.

The shape of the Dodecahedron and the extra activation made by the Code will raise the connection you have with your higher awareness to a much higher level.

You and the house, where the Pillar of Light is placed, will be protected against negative energies of all kind.

Stress energy build up by a day's work or other stressful moments will be balanced out, you will get back into your own strength quickly after being in the surroundings of the Pillar of Light.

Its power lies in its simplicity, just place the Pillar of Light in your home and put the Dodecahedron on its base and there is nothing you need to do further.
THE PILLAR OF LIGHT IS A 3D ENGRAVED CRYSTAL IN THE SHAPE OF A DODECAHEDRON.
THE DODECAHEDRON IS CONNECTED TO THE ELEMENT ETHER (ALSO KNOWN AS PRANA, 0-ZONE, OR TACHYON).

THE SECRET KNOWLEDGE OF ETHER IS “AS ABOVE, SO BELOW”.
YOU MUST LIVE OUT YOUR COSMIC BLUEPRINT ON EARTH.

ALL HIGHER DIMENSIONS, INCLUDING YOUR DIVINE STATE OF ONENESS, ARE INTEGRATED INTO YOUR EARTHLY LIFE.

THIS MEANS, YOU ARE EVERYTHING! YOU ARE THE ANGELS, THE GODS AND THE LIGHT MASTERS YOU ARE ONE WITH THE SOURCE

The photos below have been taken with a special camera which captures the energetic field, also known as aura, of a person. The photos also show the state of the 7 major chakras at the moment the photos were taken.

The photo above is taken without the Pillar of Light. The energy of the chakras are more diffused.

The aura field shows a person which is caring, sensitive, helpful and intuitive.

The photo above is taken with the Pillar of Light in the room. The energy of the chakras are more centered and focused.

The aura field shows a person which is strongly connected with his or hers higher awareness and the universe, there is more love in the aura which helps with protecting and loving yourself on a higher level, the blue on either side of the person is there to create a clear spiritual communication.
Code20160315

The Pillar of Light is activated by a code called Code20160315 which was channeled on the 15th of March 2016, hence the name of the code.

CRYSTALLINE ENERGY

Crystalline Energy is an healing energy of 22 energy sources combined, it is an energy level my wife and I achieved after 16 years of training and helping people finding their own balance.

As energy is not bound by time, speed and distance it can come from everywhere in this universe and even from beyond this galaxy.

We, as Energetic Healers, trained ourselves to channel this high frequency energy and combined it to one strong healing energy. The frequency of the energy has become so high, pure and subtle we decided to call it Crystalline Energy.

As the energy, we work with, is an intelligent energy it decides upon entering of the body what must get the highest level of priority of healing. With other words, you, as a patient, enters the center with a sore knee and want's this to be healed, it could be well that you will leaving the center still with a painful knee but during the healing your liver, kidney or other parts of your body could have been healed which were in a worse state that you might have known. I'm not saying that your knee did not get the attention it needed to have but the energy find the places in your body with the highest priority level first and then works itself down.

And don't forget, that something, what has been out of balance for a long time will not be healed overnight but sometimes the healing treatment has been such a success that people think they are healed and done with it but to really balance out and heal the body 2 or 3 treatments is common.
How does this balancing works?

Everything in the universe is made out of energy and everything that is made out of energy vibrates on its own frequency. Sometimes something happens to a person like an accident, a violation of the body or an emotional chock which may be the cause of an energetic trauma which stays behind in the energetic field of the person, this energetic field is also known as the Aura.

The Aura is connected with all parts of your body and when a certain place in the aura vibrates out of sync/balance it could results in a physical pain or discomfort. The frequency of a negative energy vibrates on a lower frequency than a positive energy.

A person in love has got one of the highest body energy frequencies you can have and they often feel they can move mountains, as the frequency of the energy of a depressed person vibrated on such a low level that sometimes the frequency goes below the level of self-healing, in other words the body is not capable of healing itself and this is when a Energetic Therapist can make a difference.

Why must the frequency of the healing energy be so high?

Earth’s energy is vibrating on its own frequency, it is called the Schumann resonance. When two objects are put together and the frequency of the energy, of these two objects, resonates on different levels the level of the high frequency will go down and the level of the low frequency will go up so that in the end the two objects will resonate more or less on the same frequency.
That's why it will take a longer time to heal people with only energy from earth, like the Reiki energy, as you can't really heal people if the frequency of the energy is so close to each other.

To really kick start a healing the difference of the frequency of the healer and the client must be as big as possible, the higher the frequency of the energy of the healer the easier it will be to raise the frequency of the energy of the client and bring them into balance again.

Can people heal themselves?

After a person has been attuned to a healing energy, like all energetic therapists have been, they have the ability to heal themselves to a certain level. To find out more please go to the page Crystalline attunements.

**CRYSTALLINE ATTUNEMENTS**

The meaning of life is to evolve, to get to know yourself, to know your strength but also your weaknesses.

The meaning of live is to evolve into a better person, not better than the people around you but better than you were yesterday, better than you were the day before that.

Raising your awareness gives you the power to create a happier and more fulfilling life, it opens a path to new possibilities.

There are multiple blockages in your mind that can act as a barrier to achieve a higher level of consciousness; like being judgmental towards yourself and to others, your inability to forgive, to find it difficult to accept the reality or past emotional blocks that are suppressed in your subconscious.

All of this exists as a barrier in your head that you have to break through to set yourself free from all obstructions.

Raising your frequency to the level of the Crystalline Energy will break down the walls, it will cleanse your soul and your mind, your whole body will function at a higher frequency.
WHY DO THE ATTUNEMENT

First and foremost you do the attunement for yourself, you can see it as a gift to yourself, the most precious gift you can give yourself ever.

This gift:

  - will bring you back into balance.
  - will protect you against negative energies in and around you.
  - it connects you to a strong healing energy.
  - you will be connected to a new Friend who will be there for the rest of your life and will help you during the rest of your life.
  - this new Friend will help you on your path of personal growth.
  - this new Friend will help you to send energy of healing to others and yourself.
  - this new Friend will help you to create new possibilities and to achieve new set goal.
  - will help you in ways I even don’t know but it will reveals itself when you are ready.
WHAT WILL HAPPEN DURING THE ATTUNEMENT

You first need to understand that everything is made out of energy, you are made out of energy, a thoughts are made out of energy and things that happens during your life are also made out of energy.

Every person has got an energetic field around him which is called an aura, see picture 1. Some people can feel and or see the aura but it is energy field that is all around you and the energy in this aura field vibrates on a certain frequency and as the aura field is connected to your body it vibrates on the same level/frequency as your body.

Sometimes something negative happens in a person’s life which leaves behind a trauma.
As I already wrote that everything is made out of energy, the energy of this trauma can settle itself inside your energetic field (aura) and can be there without you knowing it, see picture 2.

The energy of something negative always vibrates on a very low level and if the energy of a trauma settles itself in your aura field it can bring the high level frequency of your body energy down.

If this negative low vibrating energy in in your aura field long enough and can influence your life in a lot of ways….. it can affect the way you feel, if you are happy or sad, if you feel powerful or weak the low vibrating energy in your aura field can also make you sick as the aura field is connected to your whole body.
Being connected to the Crystalline Energy makes your whole body vibrating on such a high level that it is almost impossible for negative energy to enter your body, your high vibrating energy is simply pushing away the negative energies.... like picture 3

All low vibrating energy fields which you have in your energetic field (Aura) will start vibrating on a higher level, the high vibration of the Crystalline Energy will cleans your body of all negative and low vibrating blockages/energies and it may cause that you could experience some unpleasantness when these energies are leaving your body.

The body needs to get used to the high vibration and it depends on the level of negative energy in a person's body what the reaction will be that might occur.

Some people experience moments of headache or other body discomforts like diarrhea but this will last only a short time till the whole body is balanced out.
WHAT CAN YOU DO AFTER THE ATTUNEMENT

You already know if you've read *What will happen during the attunement* that all negative energy will be pushed out of your body but being connected to the energy is doing more for you, being connected to the energy;

- connects you to a new friend for life.
- cleanses the surrounding you are in.
- protects you from negative frequencies coming from all around you.
- gives you the ability to heal yourself and others in not more than 10, 20 or 30 seconds.
- gives you the ability to cleans yourself from karma from this life and previous lives.

A NEW FRIEND FOR LIFE.

The moment you are attuned to the Crystalline Energy you are connected to a new friend who will help you on your spiritual path.

This new friend will help you to send healing energy to yourself and this new gained friend will help you to send energy to others.

This new friend will help you to set new goals in live and this new friend will help you to achieve these new goals.

How this new friend will help you will be explained in Healing 1...2...3.. page 14

When you are in times of great need for help if things are not going as they should trust upon the fact that you have now a “friend” who is there for you and is willing to help you in anyway it can, the only thing you need to do is ask.

How: Just talk to your friend in your mind, tell it what is bothering you and what kind of help you want or in what way you want to be helped.
Note: It is not magic so don't expect that things changes instantly but as I explained already that all is made out of energies and with means of energy you can push things more in the right way, you can influence the go of the flow a little more to your favorite.
Still we are here to learn and sometimes that what we encounter as something bad could be a learning curve we need to learn to grow into that better person...

CLEANSING THE SURROUNDING YOU ARE IN

The frequency of the Crystalline Energy is so high that it pushes all negative energies which surrounds you away.

When you are with people with a negative low vibrating energy, you are protected by the high vibrating Crystalline Energy, you can think of it like a wall, see picture on the right.

When you are in a room, the high level of your vibrating energy pushes the negative energy out of the room as well.

Because of the high vibrating frequency of the Crystalline energy the negative entities or spirits with low vibrating energies will be pushed outside the room, even outside the house you live in.
BEING ATTUNED TO THE CRYSLLINE ENERGY GIVES YOU THE ABILITY OF HEALING

The moment you are connected to the Crystalline Energy you have the ability to heal.

Healing is being done by sending energy to yourself or a person or even a project with a certain intention. Sending energy needs to be done in a certain way, how you can read on page healing 1...2...3... page 14

It is very easily done and it only takes a couple of seconds.

GET RID OF KARMA YOU HAVE BUILD UP IN THIS LIFE AND THE OTHER LIVES

The decisions you make define you as a person, some decisions are made with the best intend some others are made in the heat of the moment and sometimes decisions were pushed upon you by others....

These decisions could have been made in this life and in previous lives. Some of the decisions you have made or the way you have acted in this life or previous lives could be hunting you at this time and even influence your life in present day and for this there is no need anymore.

With the willingness of wanting to be attuned to the Crystalline energy you showed the galaxy that you want to make something of yourself, that you want to learn and grow to become a better person who want to learn from its mistakes and is willing to help others as well.

To give the person who is attuned to the Crystalline Energy the power and the tools to do all these things it can't have karma blocking the path for the newly attuned person to grow into the person the Galaxy want's him or her to grow into.... so with the help of your newly gained friend you can cleans yourself from Karma once and for all.

How: please go to the page cleans yourself from karma on page 23

Meaning: Intention

Intention is higher-consciousness thought. In other words, it’s using the mind for a higher purpose—higher, meaning that you are not limiting yourself to certain outcomes or procedures. When you hold an intent, you call forth the actual consciousness (awareness) of the universe and therefore have at your disposal all the intelligence contained within it.
After being attuned to the Crystalline Energy you have the ability to send healing energy to yourself and to other straight away.

After being connected to the Crystalline Energy you have a helper who will be with you for the rest of your life.

There are three ways of sending healing.

1. send healing to your self       page 14
2. send healing to another person   page 17
3. send healing to a group of persons     page 20

1  SENDING HEALING TO YOURSELF

There are some steps you need to follow, they are simple steps and easy to remember.

Step 1: connect to the energy

How: just say in your mind the following:

"I want to connect to the Crystalline Energy"

Step 2: while saying "I want to connect to the energy" go with your mind to your third eye, see picture 4

How: just think of the place in the middle of your eyebrows (where the blue dot is positioned in picture)
**Step 3**: think of what the energy needs to do with you, speak out the intention what the energy needs to do

How: just say in your mind "I would like the energy to enter my body with the intention to send healing energy to my spine" ....this you do because you have a back pain all the time....

You can send energy into your body with every intention you think of...... Send energy into your body with the intention that you don't want to feel lonely, insecure, doubtful.....

If you feel that there is a need for an emotional boost, a part in your body needs to be healed or don't matter what, just send energy into your body and be clear of the intention what the energy needs to do.

**Step 4**: When speak out the intention what the energy needs to do inside your body, think that the energy will flow from your 3rd eye via your crown chakra into your body like picture 5.

How : just think that the energy will flow from your 3rd eye with a curve into your crown chakra through your head into your body.... Just thinking that it must happen will make it happen.... just believe in it.

**Step 5**: You can think of the energy which is flowing in your body that, for example, the energy flows through your spine to the place where you have the most pain.....

You can think of the energy, when you want an emotional boost, that the energy is flowing to your heart chakra
You can think of the energy flowing through your whole body when you feel tired and can use some extra energy...

You can think of the energy going to your brain if you really needs to focus and after the brain you can send it to your heart for inner peace and send it to the rest of your body to bring the rest of your body in balance.

How: just think of it like water which is going through your body your thought is the guide of the energy in your body.

Be clear with what you want because if you don’t tell clearly what the energy needs to do the energy does not know what it must do....... 

**Step 6:** After having send the energy through your body for 10 max 20 seconds you end the session with thanking the energy and thanking your new friend (by name or just say thank you my friend)

Be grateful of what the energy did for you....

It could be that you felt something during the 30 sec of giving yourself a healing session (yes 30 seconds in total from beginning till the end)

It could be as well that you didn't feel anything during the session but you can be reassured that something did happen because the moment you have been attuned to the Crystalline Energy the energy and your new friend want to help and work with you.

**In short.**

1 **Make contact with the energy**

2 **Let the energy flow from your 3rd eye via the crown chakra into your body with the intention what the energy needs to do in your body.**

3 **Guide the energy through your body for not more than 20 seconds**

4 **Finish the session with thanking the energy and your friend (by name) that the energy helped you heal**

How: just say in your mind "I would like the energy, which is going to be send to, ... (say the name of that person) ... To give them healing in there knee ( if they have a painful nee for example)..

You can send healing energy with the intention to give them inner peace...

You can send healing energy with the intention to give them strength when they need to go to the dentist ...

You can send healing energy with the intention to give them more emotional strength.... in order for the other person to cope with emotion problems.

You can even ask your new friend if he or she can help the other person out.

**Step 5**: send the energy with the intention to the other person the the 3rd eye.

How: Just think you send a parcel from your 3rd chakra to their 3rd chakra just thinking that you want to do it makes it happen....
